

# Esker to Present and Exhibit at SAPPHIRE NOW® Showcasing Document Process Automation Solutions Visit Esker in booth #869

**Derby, UK — May 16, 2017 —** [Esker](#), a worldwide leader in [document process automation solutions](#), pioneer in [cloud computing](#) and SAP partner, today announced that it will participate by presenting and exhibiting at SAPPHIRE NOW® and ASUG Annual Conference being held May 16–18 in Orlando.

Exhibiting in booth #869, Esker will demonstrate how accounts payable (AP) and sales order processing (SOP) automation can enhance the customer experience when integrated with existing SAP® solutions. Booth visitors will have access to three separate demo stations to learn more about Esker's solutions. A barista will serve flavoured cappuccinos, lattes and espressos to attendees who visit the booth.

Steve Smith, U.S. Chief Operating Officer at Esker, will host a speaking session at SAPPHIRE NOW discussing how order processing automation can not only help organisations increase order-to-cash (O2C) efficiency, but also unite key stakeholders in achieving their ultimate goal — improving the customer experience. Attendees can join Smith's session on Wednesday, May 17, at location PC202 from 1:30-1:50 p.m.

Esker's suite of document process automation solutions includes:

- [Sales order processing automation](#)
- Paper-free [accounts payable](#) invoice processing
- Automated [accounts receivable](#) invoice delivery and collections management
- Electronic [purchasing](#)
- [Mail services](#) and [cloud faxing](#)

Esker's purchase-to-pay (P2P) automation solution is now fully compatible with SAP S/4HANA®. By automating all steps in the P2P cycle, buyers, managers, AP staff, and suppliers can rapidly and efficiently exchange information, eliminating any process holdups.

“Our solutions easily integrate with an existing SAP interface to improve visibility, increase productivity and lower costs,” said Smith. “There is a large amount of time and resources spent on fixing manual errors when it comes to accounts payable and order processing. SAPPHIRE NOW is a great opportunity for attendees to discover how automating orders in SAP software environments can help customers receive their orders faster and more accurately.”

*(continued)*

SAPPHIRE NOW and ASUG Annual Conference are the world's premier business technology event and largest SAP customer-run conference, offering attendees the opportunity to learn and network with customers, SAP executives, partners and experts across the entire SAP ecosystem.

## About Esker

Esker is a worldwide leader in cloud-based document process automation software. Esker solutions, including the acquisition of the TermSync accounts receivable solution in 2015, help organisations of all sizes to improve efficiencies, accuracy, visibility and costs associated with business processes. Esker provides on-demand and on-premises software to automate accounts payable, order processing, accounts receivable, purchasing and more.

Founded in 1985, Esker operates in North America, Latin America, Europe and Asia Pacific with global headquarters in Lyon, France and U.S. headquarters in Madison, Wisconsin. In 2016, Esker generated 66 million euros in total sales revenue. For more information on Esker and its solutions, visit [www.esker.co.uk](http://www.esker.co.uk). Follow Esker on LinkedIn at [Esker – Northern Europe](#), or on Twitter at [@EskerNEurope](#) and join the conversation on the [Esker blog](#).
