

Esker Selects SISCO M as Certified Partner

Partnership will allow Esker to provide mission critical communication channel to organisations in the Middle East offering enhanced flexibility and productivity through fax server solutions.

Derby, UK, November 23, 2006 – Esker, the leader in business document delivery solutions, today named as an Esker Certified Partner SISCO M, one of the Middle East's most influential and respected technology and marketing consultants, as well as the chief business systems integrators. By working together, the partnership allows Esker to expand its distribution channel to customers in the Middle East who seek more effective document delivery for their enterprise applications. Esker Fax and Esker Fax for Notes solutions enhances the SISCO M portfolio of technology-based business process automation solutions by adding new layers of document automation capabilities. Esker fax server solutions will bring immediacy, efficiency, reliability, universal acceptance, ease of use for both sender and recipient, content-neutrality, and tight security that make fax the medium of choice for many types of business-critical documents.

Esker Fax is a robust, high-performance fax server that integrates perfectly with an enterprises applications and messaging environment. Esker Fax manages all of an organisations faxing by automatically sending and receiving their business-critical documents from any of your enterprise applications. Benefiting from seamless integration with existing IT systems and taking advantage of an installed base of more than 15,000 fax servers worldwide, Esker Fax guarantees successful enterprise communications.

Esker Fax for Notes is the specifically developed fax solution for enterprises running Lotus Notes and Domino. The pure Notes fax server solution, incorporates Lotus interface and Notes-based administration. The solution monitors and controls fax delivery through Notes databases as well as integrating seamlessly with Notes-based logging for comprehensive reporting of all fax traffic.

As an Esker Certified Partner, SISCO M will offer Esker Fax server solutions to its entire customer base, which consists primarily of medium and large-sized companies located in the Middle East. SISCO M consultants are very involved in their customers' faxing initiatives. SISCO M's consultative approach begins with an analysis of the client's current document processes and manual workflow, followed by recommendations for business process automation, solution deployment services, training, maintenance and support of the implementation and future upgrades. SISCO M's clients are spread across a wide range of vertical markets, including a strong foothold within the banking and financial communities.

“In our endeavor to provide our clients with the latest technology to streamline their business processes and to enhance their ability in addressing their most complex business challenges we feel that Esker Fax business document solutions will add the needed muscle and fiber to SISCO M's suite of enterprise solutions.” Said Bishr Al-Madani the Marketing & Communications Manager at SISCO M. (more)

“Esker and SISCOM share the same goal of achieving fully integrated business solutions for its clients. By joining forces, not only will Esker be able to reach new markets, but we can also learn from SISCOM’s experienced consultants who have already achieved great success working with companies to improve business process efficiencies,” said Alistair Nicholas, Sales Manager, North Europe & Middle East Regions, at Esker. “Many companies today are realising the benefits of automated fax delivery, so having partnerships with those who educate their clients to all these potential benefits will help strengthen our goal to increase that awareness also.”
