

Esker Joins Forces with TrustWeaver to Demystify e-Invoicing Compliance

Derby, UK — February 6, 2014 — [Esker](#), a worldwide leader in [document process automation solutions](#), and [SAP®](#) software solution and technology partner, is pleased to announce the first event in its [2014 Events Programme](#). The Senior Management Forum will be held on 11th February 2014, in conjunction with [P & A Receivables](#), at the [Stratford Manor Hotel](#) in Stratford upon Avon.

The aim of the forum is to help empower those responsible for the [Accounts Receivable](#) process with the practical tools and strategies they need to meet the challenges of today's rapidly changing business environment.

Increased focus on value drivers

Esker's session will be presented in conjunction with solutions partner [TrustWeaver](#). Esker will explain how delegates can add value to their roles and also to core business processes: by removing manual processes, companies are able to increase their focus on value drivers – which can reduce costs and improve efficiencies. This is helped by improved service levels, which are made possible through increased resource to focus on value-added tasks.

TrustWeaver will then present on its extensive experience within security technology, business applications, and law, before holding a workshop session on how to help facilitate compliance and auditability – in particular the benefits to be gained from electronic signature-based solutions.

How technology can deliver benefits

Alistair Nicholas, MD of Esker Northern Europe commented: "We're delighted to be contributing to this event, and to be continuing our strong partnership with TrustWeaver. Together we aim to deliver an informative programme that helps answer the challenges faced by financial departments today, and to highlight the benefits that our technologies can jointly deliver."

"We look forward to welcoming delegates to the first event in our 2014 programme, and to demonstrating how to harness document automation technologies in order to extend productivity gains." concluded Nicholas.

About TrustWeaver

TrustWeaver provides business transaction compliance as a service. By adding legal certainty, we allow hundreds of the world's largest enterprises to automate and consolidate business processes globally. Unlike alternative solutions, TrustWeaver's cloud solution decouples legal compliance from the process for scalable, guaranteed results spanning 50 countries. Applications supported include VAT compliant e-invoicing, e-contracting, e-insurance policies both stand-alone and in partnership with many of the world's leading organisations. In business since 2001, TrustWeaver is headquartered in Stockholm, Sweden. For further information, please visit www.trustweaver.com.

About Esker

Esker is a worldwide leader in document process automation solutions. Addressing all types of business processes, from accounts payable and accounts receivable to order processing and procurement, Esker cloud computing solutions enable companies to automate the reception, processing and sending of any business document with one platform.
