APPLICATION OVERVIEW

Esker Anywhere™ provides fast, smart and scalable order management operations at any time. Sales reps and customers alike can quickly and efficiently place and track orders while keeping an eye on everything via mobile dashboards that display the number of orders in the queue and their status.

The application is available from the Apple App Store® and Google Play™. Once installed, users can connect to the application to place orders.

THE POWER OF AUTOMATION IN YOUR HANDS, LITERALLY

Esker Anywhere™ provides sales reps and customers with intuitive mobile ordering capabilities, including the power to:

- Scan product bar codes and automatically capture item and lot numbers, saving time and increasing the accuracy of orders. Esker supports industry bar code formats and standards, including GS1, HIBC, EAN-13, etc.
- Speed up recurring orders as the solution remembers ship-to addresses and products frequently ordered from product catalogues
- Place different order types including replenishment orders, sample no-charge orders and standard orders
- Generate customer inventory reports and automatically replenish missing products
